Dear Sir/Madam:

In response to the Office Action Summary, mailed February 16, 2005, Applicant offers the following Amendment and requests reconsideration of the above-captioned application.

CERTIFICATE OF MAILING
UNDER 37 C.F.R. § 1.8

DATE OF DEPOSIT: **March 16, 2005**

I hereby certify that this paper or fee (along with any paper or fee referred to as being attached or enclosed) is being deposited with the United States Postal Service with sufficient postage as first class mail on the date indicated above and is addressed to: Mail Stop Amendment, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

Election/Restriction Requirements:

In response to the restriction requirement of February 16, 2005, applicant provisionally elects group I consisting of claims 1-20. This election is made with traverse based on applicant's belief that a search directed to the apparatus claims would sufficiently overlap with a search based on the method claims to negate need for further searching. Accordingly, a single examination could expedite the prosecution of both sets of claims, saving cost to both the patent office and the client. Subject to reconsideration of the restriction requirement, applicant withdraws claims 21 to 31.

With respect to the election of species, applicant elects the embodiment of Figure 4. Applicant points out that the representations of Figs 6 and 7 are described as electron microscope images of spots made by exposing laser beams to the CIGS material identified in the claims. Accordingly, Figs 6 and 7 are not intended to be formal representations of the invention, but provide support for the viability of the inventive process. Applicant submits that all independent claims (1, 11 and 21) are generic as to the invention as represented in Figs 3 and 4, and requests reconsideration of the species requirement.

DATED this 16th day of March, 2004.

Respectfully submitted,

Vaughn W. North
